PARTNERSHIP

This presentation covers four core modules: plant overview, capabilities, craftsmanship, and partnership.

01 Plant Overview

About Us: Deep Expertise in Denim & Woven Wear

01 Who We Are

A modern manufacturer specializing in ODM/OEM for high-end denim and woven apparel.

03 Corporate Vision

To become a world-leading full-category apparel solution provider for denim and woven products.

02 Core Values

Quality, Innovation, Efficiency, and Win-Win Partnership.

Market Insight: New Trends in Premium Denim

Quiet Luxury

Consumers seek comfortable wearing experience with understated premium quality.

Sustainable Fashion

Eco-friendly materials and green production have become core brand competitiveness.

Multi-Scenario Styling

Meet diversified dressing needs for commuting, leisure, social events, and more.

Our strategy follows these three major trends to develop premium denim products with aesthetics, comfort, and environmental responsibility.

Factory Scale

01 1,500 sqm Facility

Integrates pattern studio, cutting room, production workshop, finishing, and exhibition hall for one-stop development and production.

02 80+ Skilled Workers

Daily capacity of 2,000 pieces with dedicated account managers tracking every order for full transparency.

03 Equipment & Machinery

40 lockstitch machines, 12 overlock machines, 5 bar-tack machines, 1 eyelet buttonhole machine. In-house pattern studio for efficient development.

02 Capabilities

Full Craftsmanship: Meticulous Attention to Every Detail

01 Wash Processes

Stone wash, enzyme wash, sandblasting, hand brushing, whiskering.

02 Decorative Techniques

Laser engraving, 3D embroidery, hand distressing, bead embellishment, flocking.

03 Special Treatments

Thermochromic color-changing, reflective printing, fragrance embedding.

Core Capabilities: Full Categories, Full Styles, Full Craftsmanship

Full Categories

Denim and woven trousers, jackets, skirts, shirts, and all denim & woven apparel.

Full Styles

From retro classics to modern trends, street workwear to minimalist quiet luxury.

Full Craftsmanship

Proficient in washing, stone milling, laser engraving, embroidery, flocking, and more.

Full-Category Coverage: One-Stop Solution

03 Craftsmanship

Production Workflow: From Design to Delivery

01 R&D & Design

02 Fabric Sourcing

03 Precision Cutting

04 Precision Sewing

05 Washing & Finishing

06 QC & Packaging

Fabric Selection: The Starting Point of Quality

01 Premium Cotton Sources

Carefully selected Xinjiang long-staple cotton and American Pima cotton.

02 Eco-Friendly Certification

OEKO-TEX certified fabrics ensure safety and environmental protection.

03 Innovative Fabrics

Adopt organic cotton, stretch fibers, and other innovative fabric materials.

Precision Cutting: Veteran Workers Control Every Detail

6-8 Hour Fabric Relaxation

Fabrics are fully relaxed to counteract rebound, precisely control post-wash dimensions, and prevent shrinkage.

High Precision

Cutting tolerance is strictly controlled within specifications to guarantee accurate cut pieces.

High Efficiency

Support multi-layer fabric cutting to significantly shorten production lead times.

Quality Inspection & Packaging: Perfection in Every Step

01 Rigorous Quality Control

Every piece undergoes multiple manual and machine inspections to ensure zero-defect delivery.

02 Premium Packaging

Dust-proof and moisture-proof packaging materials guarantee products arrive in perfect condition.

04 Partnership

OEM Service

Production based on clients' design drawings and samples.

Customization

Personalized and small-batch customization solutions.

About Sampling & MOQ

Basic Styles

Stretch fabric: MOQ 120-150 pcs
Non-stretch fabric: MOQ 100-120 pcs

Jackets / Shorts / Skirts

MOQ 150 pieces (due to fabric consumption and complexity)

Complex Styles

Heavy-duty intricate styles: MOQ 200 pieces

Our Commitment: Upon confirmation of precise requirements, we guarantee samples matching specified standards.

Core Strengths: Superior quality, fast turnaround, cost-effective pricing, and smooth communication.

Founded in 2013, BADU FACTORY looks forward to long-term win-win collaboration with you.
